

PRAVESH MALVI

Frontend Developer

+91-9009503504 | praveshmalvi009@gmail.com

CAREER SUMMARY:

Solution-oriented and problem solver with 1.8 years of experience in building and maintaining a better code base for reusability in web applications. Eager to take on any challenge to create user-centric and problem solving technologies using React Js and Next Js.

WORK EXPERIENCE:

Scubeelate Technologies Private Limited | Bangalore, India

Frontend Developer | 26 September, 2022 - Present

- Translated design mockups into responsive UI components and developed adaptable and efficient user interfaces utilizing React Js and Next Js, ensuring smooth experiences across various devices.
- Proficient in integrating UI components with backend APIs, ensuring seamless data flow and functionality.
- Leveraged Redux Toolkit for streamlined state management, ensuring scalability and maintainability while enhancing application performance.
- Developed 5 intricate admin panels and 2 interactive websites, seamlessly integrating RESTful APIs. Implemented comprehensive accessibility layers and tailored modules, customizing user experiences based on login credentials for heightened security and usability.

RELEVANT PROJECTS:

Zaincare

- Developed this website to enhance the delivery of in-home healthcare services, along with admin panel. Constructed using React Js, Redux Toolkit, Tailwind CSS, and MUI to ensure responsiveness and accessibility for users.

Duvet Homes

- Developed engaging user-centric website and admin panel using React Js, prioritizing user-friendliness. Utilized Tailwind CSS to guarantee an aesthetically pleasing design, responsive structure, and compatibility across various devices.

EDUCATION:

2013 - 2016 | VVM College | Betul, MP, India

Bachelor of Science - Computer Science
